FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

RM-9242

Thomas Conroy (TOM7122@aol.com) writes:

I ask that you carefully consider RM9242. As a 25 year broadcast veteran who has seen major changes over the past several years in radio, including far less community involvement, I believe that LPFM (1 watt or less) could provide much needed public service when used in conjunction with neighborhood civic groups etc. Should LPFM become a reality, please contact me with the details. Best regards to you. Tom Conroy
